

## **Quotes after SS12, SS13, SS14**

### **Cody Crocker/Ben Atkinson (APRC) Winner**

I guess I put a lot of pressure on myself today. There was no pressure from anyone else. I just wanted to get through the day and make no mistakes. Which is not easy to do in such a tough event.

I am very happy to have won. Katsu beat us in the second last stage so we knew it was important to get through the last stage and win the championship.

I couldn't have wished for a better result on our home ground. We benefited when Katsu went off yesterday and he gave us the championship really.

*Re China:*

China will be good for testing. It will be good to go up against fellas like Dean HERRIDGE. He will give us a great fight.

### **Scot Pedder/Glen Weston (APRC)**

It was a tough event. We had lots of issues. We were stuck in gear yesty and then I hit a bank this morning and it cost us 8 minutes, so we finished 5<sup>th</sup> in the Asia Pacific but about 20 minutes behind over the whole event.

We're pretty happy we finished. First time in Malaysia and the roads are very tricky and very unique so it adds some experience and hopefully we can come back again next year.

### **Mark Tapper/Jeff Judd (PSD)**

It was a battle to keep my mind on the job in the last few stages. Its pretty hard to describe my feelings right now. But yeah... Awesome!

### **Arjun Rao/Musa Sheriff (PSD, MRC)**

The second set of stages today we chose the right tyres. We had a clean run and I am very happy with my results.

*Re the PSD:*

It was a great experience and I will fight again next year. (Arjun is 25 yrs)

*Re the APRC:*

Very different from what we have in India. We normally drive about 120klms and here I have done 240klms, so it was good experience for me and made me tougher. Something new.
